

## Quantum technologies and therapies SCIO/EDUCTOR, a new approach to prevention, healing & anti-aging: Stimulate the patient's own stem cells with SCIO/EDUCTOR

Jacqueline Jacques

BioQuantique SARL, Switzerland

Many researchers believe that over the next two decades, stem cells will change medicine forever, extend life and potentially save our life! Yes, stem cells have tremendous promise to help us understand and treat a range of diseases, injuries and other health-related conditions. However, very few stem cell treatments have been proven safe and effective. By stimulating the capacity of the patient to produce his/her own stem cells, Quantum Technologies SCIO/EDUCTOR, based on Quantum Physics, Biofeedback and Bioresonance provide a safe and effective alternative to stem cells complexes and costly medicalized treatments and procedures that still need to be validated. The main premises of Quantum Biofeedback and Bioresonance therapies are: (1) The energetic body is the matrix of the physical body. Stimulate and heal the energetic body and the biochemistry of the body will change. (2) The body is electrical in nature; therefore reactivity to stressors in the body can be measured electrically. Health can be measured! (3) The body is innately intelligent and it has the ability to heal itself if the right conditions or stimuli (frequencies) are provided. (4) Electromagnetic frequencies (micro-currents) can be used to re-establish the electrical and biochemical functions of the body to restore the integrity of the tissue and promote healing. We are beyond just chemistry! Life is Photonic! Cells communicate with electro-magnetic radiation. We can use electro-magnetic radiation to modulate stem cells and stabilize the energy in the body. The SCIO/EDUCTOR Quantum Technology integrate +500 focused energetic therapies including balancing and stimulating stem cells, stimulating cell communication, regeneration therapies, DNA harmonization, etc. Stem cells as well as the organs producing stem cells, (bone marrow, adipose tissue, etc.) can be stimulated and modulated through electromagnetic radiation (micro-currents). The SCIO/EDUCTOR Quantum Technologies and Therapies work with photons, electrons and electromagnetism (micro-currents) to improve the electrical vitality of the body's cells and organs and to re-establish homeostasis in the body. Quantum Technologies and Therapies thus are the most appropriate therapies when considering stem cells!

### Biography

Jacqueline Jacques has more than 30 years of experience as a Manager, Management Consultant and Coach mainly in Canada, USA, France Hong Kong and UK. She trained from experts and teachers in personal development and alternative medicine in Europe, America and Asia becoming a Doctor of Sciences specializing in Quantum Energy Medicine. She is a Lecturer, Seminar Leader, Coach and Quantum Biofeedback and Bioresonance Expert promoting Quantum Technologies and Therapies and training and coaching practitioners in their understanding and practice of this new approach to health and wellness. She is the Founder and Chairperson of BioQuantique SARL (Geneva) and BioQuantum (Canada).
