

## DENTAL AND ORAL CARE CONGRESS

September 16-17, 2019 Osaka, Japan

---

**Refresh your occlusion****Hussameldien Hussien**

My dentist dental practice Manchester, UK

**Introduction:** Occlusion is one of the topics that's not well taught in undergraduate education and relatively ignored in postgraduate level. Some of the reasons for this are, the complicated definitions, the theoretical methods of teaching the topic, the differences in opinions between practitioners and the significance of the applications.

**Aim:** The aim of this lecture is, to briefly cover the main aspects of occlusion while avoiding the jargon and the complicated approach. It will cover occlusion from a very practical point of view.

**Objective:** The objective of the talk is refresh and simplify definitions in occlusion that normally causes a degree of conflict and complication. The talk will also cover the main classifications in occlusion as well as assessing the occlusion. It will further cover briefly occlusion in all aspect of dentistry (simple and advance restorative dentistry, removable prosthesis, orthodontics, periodontics, pedodontics, and implant dentistry)
